

Library Space Program Planning Group: Appendix A

SURVEY OF UCSF DEANS ON PARNASSUS EDUCATION PRIORITIES

CROSSWALK WITH PROPOSED PRIME/TELEMEDICINE EDUCATION SPACE PROGRAM

| Program Element | Quant | ASF/RM | ASF | DENTISTRY | GRAD DIVISION | NURSING | MEDICINE | PHARMACY |
|--|-------|--------|--------|--|--|---|--|--|
| 1 Medium Classrooms (70 seats) | 2 | 1,000 | 2,000 | Not mentioned. | Not mentioned. | Need for 7 medium classrooms. | Priority need for Medicine. Need for 2 medium classrooms. | Not mentioned. |
| 2 Medium Smart Classrooms (70 seats) | 2 | 1,000 | 2,000 | Need = 80 seat smart classrooms for Dentistry programs. | Can use 2 medium (60-70 seat) smart classrooms to facilitate cross-site instruction, especially for seminars/journal club formats. | Not mentioned. | Need 2 medium smart classrooms. | Priority need for Pharmacy small group discussion. |
| 3 Small Classrooms (20 seats) | 12 | 300 | 3,600 | Enough seminar rooms for learner-centered activities. Cluster of seminar rooms in central location are most needed. | Yes, also needed (but with better conditions & instructional technology). 12 small "simulation" rooms exceeds need of graduate teaching. Physical Therapy could use 4 - 6 rooms. | Need = 16 small classrooms. Emphasis on small group instruction. | Most desperate priority need for Medicine. Need 10 small rooms. | Critical need for small classrooms (22-25 seats) continues, exacerbated by projected enrollment increases and compounded by future increases in other campus programs. |
| 4 Small Smart Classrooms (35 seats) | 4 | 600 | 2,400 | Need = 20-25 seat rooms in a central location. | Most needed size are wired cross-site rooms (smart classrooms). | Not mentioned. | Need 4 small smart classrooms. | Priority need for Pharmacy small group discussion. |
| 5 Clinical Skills/ Simulation Ctr | 1 | 7,000 | 7,000 | Yes - supportive of clinical skills/simulation & modernization of curriculum, but expect somewhat limited use in Dentistry | Translational Science instruction may use simulation center. | Priority need for Nursing includes Simulation Lab. (Nursing already has Clinical Skills). | Priority need for Medicine includes Clinical Skills and Simulation Lab. | Would be used for both program-matic and inter-professional instruction. |
| 6 Academic Offices/ Faculty Prep Space | 1 | 2,000 | 2,000 | Not mentioned. | Not mentioned. | Not mentioned. | Referred to as "staff offices" but not described. | Need for Student & Curricular Affairs replacement offices. |
| 7 Telemedicine Suite (Exam, Consultation & Control Room) | 1 | 440 | 440 | Yes - supportive of telemedicine center & modernization of curriculum, but expect somewhat limited use in Dentistry | Not mentioned. | Would meet priority needs if strategies to meet goal were recrafted. | Mentioned as need for telemedicine exam room, consultation room, and control room (440 asf). | PRIME/Telemedicine education space should benefit campus as whole with parity of access by all instructional programs. |
| 8 Total | | | 19,440 | | | | | |

9 OTHER NEEDS NOT NECESSARILY MET BY PROGRAM

| Program Element | Quant | ASF/RM | ASF | DENTISTRY | GRAD DIVISION | NURSING | MEDICINE | PHARMACY |
|-------------------------------------|-------|--------|-----|---|---|--|---|---|
| 10 Lecture Hall(s) | | | | | | Need = 3 large lecture halls | Need = 1 large lecture hall would be met by Stem Cell 200+ seat lecture hall. | |
| 12 Other Instructional Space Issues | | | | Supportive of education building concept. State-of-art classrooms and simulation center essential for attracting best applicants. | | Needs full range of room sizes for instruction. Curriculum design accommodates space constraints. However curriculum and learning environments should make sense internally. Curricular design should be more creative and flexible. | Additional seminar rooms with flexible spaces | |
| 13 Other unmet needs | | | | | Proposal does not help professors to join a classroom remotely. | Reception space, student social interaction, poster sessions, student conferences, interprofessional programs. | Staff office space | Pharmacy's Student & Curricular Affairs Office was originally included in new education building program. Since unit currently occupies borrowed space, its space must be replaced. |
